Dear Jennifer and LaLoya:

I want to thank you for your compassion in a very difficult time with the visit to the office of Dr. Rosalyn Yalow's account. We have been working on this for a while.

Separate from the visit to the office, our high school was involved in a project that was a nearly visit leadership meeting. Our high school was involved in a project that was a nearly Department of Homeless Services (DHS) project. We have 10-50% of our students who are homeless. We embrace these students as full members of our community. We have improved our school's performance (Brooklyn). We accept this turnover as part of our mission. We have given those who are homeless a new school.
