Getting Ready for School

Writing Wilfour Child Everyday

Writing is one of the most complex skills children will develop! Learning to write requires children developing knowledge about print, the alphabet, and how sounds are represented by letters. It also requires fine motor skills to hold a pencil and to control how it moves . e

Activities to do with your preschooler:

- [™] Use a Salt Tray to Teach Your Chall Mrite His or HeName:Sensory Salt Tray Use a cookie sheet or the lid from a shoe box to make a salt tray for your child to practice "writing" his or her name or othewords, or for just swishing the salt around. Here's what you do:
 - f Use a cookie sheet or the lid from a shoe box as a tray.
 - f Write your child's name in marker or crayon a sheet of unlined papethat will Coverthe bottom of the tray. Use all capital lettefisst and then go on to using upper- and lowercase letters. Place the paper on the bottom of the tray.
 - f Pour a layer of salatind shake gently stone saltcoversthe bottom of the tray You child can still see the letters on the paper underneath the salut use as a guide. Your childen uses his or her finger to trace the letters and write his or her name. If your child makes a mistake, a gentle shake lets him or her start again
 - f Sand and corn mealsn be substituted for salt. Theyowk well tod

™ AsYour Child toDictate a Story You Write and Your Child Illustrate An Author

Your child can be an author and illustrator with your help. While being an author, your child is learning about print, words, letters. Children have lots of stories to share, especially if you read books to your child regularly.

- f Fold 35 unlined 8 ½ X 11 sheets of paper together to make a booklet. Staple on the fold.
- f Ask your child to tell a story foyou to write down. Some children prefer drawing the story and tell telling you what words to write, and others like to illustrate the story after all the writing is done.
